SUBJECT: GENERAL— Operational/CAPT

SPECIFIC— Tracing of Unsigned Telegram sent UJDREADFUL from Hamburg

Ref: PULL 5530

Unfortunately CIS was unable to trace the sender of the referenced telegram, as it is almost impossible for them to trace a message into an Allied Zone. They also said that even had they traced the message back to its origin, it is highly probable that the sender would have used a pseudonym, since identification does not have to be produced to send a telegram from Hamburg - a point we had previously established.
